Catherine - This is the latest version. Our intent was to send it to ORA for final review. ERRD and PAD have concurred and it has been updated to reflect soil testing.

Please advise as to what our next step should be. Thanks,

Mike

I just found the draft response letter to Sen. Gillibrand re Hoosick Falls – you did send it up! It got misplaced because there's still an old tab on the file labeling it as "Middletown Dump". But now the letter needs updating to match current events – please update and e-mail to Judith, with cc's to everyone on this e-mail plus Paul Simon, Joan and Pat Evangelista . Thanks!
